

JULIET STEWART

CORPORATE SERVICES

WHAT IMPACT DOES MAKE-UP MAKE IN THE WORK PLACE?

You have seven seconds to make your first impression... make it an unforgettable one.

It used to be the corporate look was to be understated for women. That no longer holds true. It is very important to look up to date today if you want to make a lasting impression for your company and employees.

There is a big difference between classic make-up and the latest trend. Trends are short lived and will make one forgettable and leave potential clients with a bad impression, not only of the employee but for the entire company as well. Your employees are your ambassadors; their image should reflect the company's image, but it also needs to express the employee's personal sense of style.

The consultation will consist of the client bringing in all the products that they are currently using. I will go through everything and if they are outdated; too trendy, unprofessional, distracting and not complimentary to the client they will be discarded. Whatever products are left will be used to teach the client the proper techniques. If needed, we can provide additional products. The client can also choose to purchase their products from their favorite cosmetic company, but now they will have a better understanding of which products will achieve the professional, sophisticated and elegant look that they desire.

After the make-up consultation I will cover the basics of Do's and Don'ts of corporate wardrobe and jewelry - once again maintaining their sense of style and comfort zone.

Your employees will learn to become their own best make-up artists for all occasions. They will be able to go from an office setting to dinner with prospective clients. Their look will be what I call "professional sophistication"... timeless.

The client will be given a personal portfolio containing a detailed diagram of their newly designed look along with written instructions about everything that was discussed during their private lesson.

Please allow approximately 3 hours for lesson.
