### WHAT TO EXPECT

Working closely with the world recognized Babor Institute, our menu has been meticulously developed with one thing in mind, bringing health to all skin types in a quiet and private setting. We do not use any Retinol or abrasive products. All facials and body treatments include skin analysis - face, neck and shoulder massage, hand treatment and reflexology. We do NOT speak about products (no selling) during the facial, and thereafter, we will give customers skin care samples to take home according to what one's skin needs may be. Each service concludes with a stimulating scalp treatment!

### OUR CLASSIC FACIALS

**One Hour / \$ 95**

All of our classic facials are designed around the needs of your skin; these treatments provide a deep pore-cleansing by gently removing dull surface skin cells and extracting (optional) impurities. Each service continues with a luxurious facial massage, a nourishing mask, a moisturizer treatment that is specifically chosen for your skin's needs and reflexology for your feet and hands.

### HY-SKIN REFINING FACIAL (POWER LIFT)

**One & One-Half Hours / \$ 145**

This high performance luxury treatment visibly enhances the elasticity of the skin leaving it noticeably smoother and increases its vitality.
